MEMORANDUM FOR THE RECORD

SUBJECT: Allen Dulles Estate Records

25X1A9a

1. I met with [REDACTED] this morning. He stated that he is making good progress on the project; that he is currently going through papers dated in 1958. He is continuing to follow the plan previously discussed, i. e., to categorize the papers into three basic groups: (1) Papers that in his judgment may be returned to the Dulles Estate, (2) Questionable papers, and (3) Papers which should be retained either in Agency records or OSS records.

2. Concerning papers falling in category 2 above, I suggested to [REDACTED] that it may be wise to establish a classification committee which would consist of representation from the DD/I, DD/P, and DD/S&T and chaired by a representative from this Office. He also sees the possibility of future problems in this area emanating from knowledgeable members of the public to the effect that papers of the estate are being kept by the Agency which should have been released to the estate and possibly for public access. This could be particularly true if the estate releases the papers, as has already been mentioned to Princeton University. We both feel that such an approach would be most efficient in that Directorate input would be immediately and simultaneously brought to bear upon the particular problem.

3. I gave [REDACTED] the background leading up to Mr. [REDACTED] interest in the papers from an historical standpoint. I set up a meeting for the three of us to take place on 4 June.
